Projects

Notes App using MERN stack

June 24 – August 24

Developed a full-stack Notes application using the MERN stack (MongoDB, Express, React, Node.js). The app allows users to create, edit, delete, and view notes securely.

Tech: MongoDB, Node.js, Express.js, React.js, JWT, bcrypt, Mongoose, Git, Netlify, MongoDB Atlas

Key Highlights:

- **Frontend:** React.js for building dynamic UI components for managing notes.
 - **Backend:** Node.js & Express for handling API routes and CRUD operations for notes.
 - **Security:** Implemented JWT for user authentication and bcrypt for secure password storage.
 - **Deployment:** Deployed backend on Heroku, frontend on Netlify, and database on MongoDB Atlas.
